However, if your guide accommodates priceless ? and more importantly NEW info, references, or techniques ? then you should purpose to cost it on the high end.

After you figure out your objective, you should work out what your audience's want is on your ebook. For example, does your e-book resolve a specific problem? If it does, and solves it in a means that hasn't been written about in 100 different ebooks, you may be in a position to obtain excessive sales at a high price. In case your book solves a problem or answers questions in a brand new and

distinctive method, you should worth your e-book as excessive as you may go. You will obtain larger profits this way, however bring in fewer customers. If you wish to see massive profits over buyer draw, goal for an audience that's searching for straightforward solutions to their issues at a low price. If your ebook is aimed toward solving one explicit problem relatively than basic advice, then you'll be able to charge more. Start on the highest value the market will bear to usher in the largest profits, and plan to low cost the ebook a number of occasions throughout the year.
