Besides selling your books assiduously online, there are several different methods that may enable you sell more books.

One is to provide something away without spending a dime with your e-book, comparable to a worthwhile bonus item. Or bundle several ebooks underneath one value, which lowers the price for each e book if they have been offered separately.

An efficient approach for figuring out a price is to send out a survey to your present customers. If these customers have already bought an e book from you, ask for his or her opinion when it comes to price. Do that by creating a gross sales web page for the new e-book, but don't embody a worth on that page. As a substitute, add plenty of links to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other technique is to test out costs by creating a variety of duplicate sales pages with totally different costs on every page. Ensure that your gross sales copy is strictly the same on each web

page, and contains your selling-handle sentence. Then determine for each web page the conversion ratio between guests to your web site and gross sales of your book. This will inform you what your optimum price is.

In the end, if you happen to've written a ebook that solves a drawback or presents a brand new approach, your e-book will herald each site visitors and profits. So you'll want to write that promoting-deal with sentence that sums up what drawback your e book solves and what the advantages of your 61 e book shall be to the purchasers who buy it. And then watch your market come to you!
