and promotional materials, and each time anyone asks you about your ebook.

One other technique is to test out prices by creating a number of duplicate gross sales pages with different prices on every page. Be sure your sales copy is exactly the identical on each page, and consists of your selling-handle sentence. Then figure out for every page the conversion ratio between visitors to your website and gross sales of your book. This can inform you what your optimum price is.

Ultimately, if you happen to've written a ebook that solves a drawback or presents a brand new approach, your book will bring in each visitors and profits.
