An efficient approach for figuring out a worth is to send out a survey to your current customers. If these clients have already bought an book from you, ask for their opinion when it comes to price. Do this by making a sales web page for the new guide, but do not embrace a price on that page. Instead, add plenty of links to survey questions that ask pointed questions to assist you in assigning a worth to your ebook.

One other technique is to test out costs by creating a variety of duplicate sales pages with totally different prices on each page. Be certain your gross sales copy is exactly the same on every web

page, and contains your promoting-handle sentence. Then work out for each web page the conversion ratio between visitors to your site and gross sales of your book. This may let you know what your optimum price is.

Finally, if you've written a guide that solves a drawback or presents a brand new approach, your book will usher in both traffic and profits.
