One is to give one thing away for free with your book, such as a useful bonus item. Or bundle a number of ebooks under one value, which lowers the value for each e-book if they have been sold separately.

Do that by making a gross sales page for the new ebook, but don't embody a price on that page. Instead, add various hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another strategy is to test out costs by making a variety of duplicate sales pages with completely different costs on every page. Ensure your sales copy is precisely the identical on each web page,

and contains your promoting-handle sentence. Then work out for every page the conversion ratio between visitors to your site and gross sales of your book. It will let you know what your optimum value is.
